Group Exercise Descriptions

YOGA

Yoga

Energize your body with this multi-level class that focuses on yoga poses to increase flexibility, build strength and stamina. This class is for experienced yoga students and builds on basic postures.

Stages Indoor Cycling

Indoor cycling is a great overall Cardio Workout, it empowers total body fitness. The stages bikes we carry are at the top of the field and offer on the fly workout info. Designed by Professional Road Cyclist for their own off road workouts, so workout like a pro!!!

Octagon by Escape Fitness

This is a brand new concept in fitness that provides engaging functional training through a unique facility design in a group setting. We are one of the first to offer this in the U.S. Escape Fitness products "constantly look to push the boundaries of what is possible and make the ordinary extraordinary." The goal is to "Escape your Limits" and exceed your expectations of your fitness experience and results. Adaptable to all.
Members \$5/Class Non Members \$12/class

CARDIO

Les Mills BODYPUMP™

The original weight class that tones your body and pushes you to the limit every time. Helps maintain bone density and provides increased strength and endurance.

Les Mills BODYVIVE™

A low-impact, whole body group fitness workout that uses tubes and body weight to boost fitness and core strength. The inspirational instructors and music motivate you. Best of all, you're left fizzing with energy, so you can really take life on!

HIIT

This is a High Intensity Interval Training class for the individual looking to take cardio and strength outside of the box. Training includes a combination of plyometrics, conditioning drills, and strength training in a circuit style. Modifications are provided for all fitness levels.

Zumba®

A fusion of Latin and international music and dance themes creating a dynamic, effective and fun fitness system. Zumba® uses the principles of interval training by combining fast and slow rhythms that tone and sculpt the body.

Lo Impact/PT

Have fun and move to the music through a variety of exercises designed to increase muscular strength, range of movement and activities for daily living. Resistance training is achieved with the use of hand weights and tubing. A chair is used for seated and standing support. Great for Post Physical Therapy work.
